Required data for a tender for water in oil/oil in water measurement

water in fuel detection		
Standard	<input type="checkbox"/> Europe	<input type="checkbox"/> Asia <input type="checkbox"/> US/Canada <input type="checkbox"/> _____
Medium, fluid type*		<input type="checkbox"/> sample available
Measurement range*		
Process temperature, min-max* (°C)		
Ambient temp., min-max* (°C)		
working pressure, min-max (bar)		
Nominal pipe size*, diameter (mm)		
pipe orientation (0°, 180°)		<input type="checkbox"/> drawing, foto available
environment conditions, zone, class	<input type="checkbox"/> no hazadous	<input type="checkbox"/> hazardous _____
accuracy*	<input type="checkbox"/> 0 - 1 %	<input type="checkbox"/> 0,05 %
respones time (sec)		
*Minimum details for an offer		
Project specifications		
Quantity/units		
offer request	<input type="checkbox"/> few days	<input type="checkbox"/> weeks <input type="checkbox"/> month
delivery/installation time	<input type="checkbox"/> weeks	<input type="checkbox"/> month <input type="checkbox"/> _____
Budget (min - max)		
EMC requirement		
Communication requirements		
Explosion-proof		
System integration	<input type="checkbox"/> YES	<input type="checkbox"/> NO
Application description		
ZERTIFIKATE		
<input type="checkbox"/> Without	<input type="checkbox"/> Material certificate	<input type="checkbox"/> Calibration certificate
COMMENTS
